Adrianna Kubica-Cypek: String Quartet no. II "Full Moon" (2022)

It is said that during the full moon emotions prevail over reason — this idea formed the foundation of the presented work for string quartet. The piece is built around two motives — emotional states — suspension and an overwhelming excess that verges on aggression. This way, the piece guides through a „soundscape“ of an inner nature, inspired by a narration presented in R. Murray Schafer's string quartet no. X „Winter Birds“.

Composition created for the workshops with the Ligeti String Quartet in 2022.

Tonemestre: Marie Krastel, Xinyi Ding
